DETAILED ACTION

Remarks

Restriction made in the previous action has been withdrawn due to an error.

Accordingly, a new restriction for correcting the error has been provided in this action as follow.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16 are drawn to an emergency lighting system utilizing an automatic charge/discharge battery for backing up, classified in class 315, subclass 86.
- II. Claims 17-23 are drawn to a power level of a battery as conditioning for charging/discharging the battery , classified in class 320 subclass 136.
 1. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the subcombination as claimed in invention II does not play an essential to the combination as claimed in invention I for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the subcombination, a battery will be automatically charged or discharged based upon a power level of the battery so as to avoid overcharge the battery and can be used to any electrical system while an emergency lighting system in the combination utilizing a battery as a back up energy source and a behavior of battery being controlled by a main control unit.
 2. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2821

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
